Hi all,

A job position for a Senior Bioinformatician opened at MyHeritage, where I've been working for the past 2 years.

For details follow the link below.

Just wanted to say that MH is a great place to work, socially and intellectually. It's one of these positive companies that manages to bring some good and change lives - from connecting families after decades of being lost, to fighting COVID-19.

You can upload your CVs or send them to me. Feel free to ask me questions.

<https://careers.myheritage.com/careers/position-3276281/senior-bioinformatician/>

Best,

Eyal

eyal.elyashiv@myheritage.com

p.s.

Both positions are located in our Tel Aviv office, with a hybrid WFO/WFH model.
