

We are looking for a senior DS that will join our DS group @ K-Health. K-Health is a venture-backed, fast-growing start-up with a mission to use the power of shared knowledge to give everyone access to higher quality, more affordable health care.

We're looking for mission-driven individuals to join our growing team and help us eliminate healthcare inequalities and build a better, healthier future for us all.

Come join us, you won't regret it!

We have two open positions in our group - one for a [senior DS](#) and another one for an [NLP researcher](#)
