

A funded PhD studentship is available in Prof. Przulj's lab at [Barcelona Supercomputing Center - Centro Nacional de Supercomputación](#). It's funded by La Caixa Foundation, so it comes with the most competitive stipend in the EU, €32,000 per year.

The application deadline is January 25th, 2023. The advert is available at <https://fundacionlacaixa.org/en/inphinit-doctoral-fellowships-incoming>, to see it filter by host organization being "BSC" at <https://finder-fellowships.lacaixafoundation.org/finder> and then choose "PhD student in Explainable Machine Learning for Biomedical Data to Aid Precision Medicine."

Barcelona is a great city to live!

Please distribute to all who may be interested. Thanks a lot!

Best wishes,

Natasa
